

I claim:

1. A front catch plate for a dispensing gun, comprising:

a yoke and a plurality of inserts selectively installable on said yoke, each insert having a different cradle section for seating and supporting a corresponding variety of dual cartridges thereon.

2. The front catch plate for a dispensing gun according to claim 1, wherein said yoke is

substantially U-shaped.

3. The front catch plate for a dispensing gun according to claim 1, wherein said yoke is

substantially C-shaped.

4. The front catch plate for a dispensing gun according to claim 1, wherein said yoke is

defined by a tongue-and-groove track around its periphery.

5. The front catch plate for a dispensing gun according to claim 1, wherein said plurality

of inserts are each defined by a peripheral track for cooperation with the tongue-and-groove periphery of said yoke.

6. The front catch plate according to claim 4, further comprising an adjustable centering stop that slides laterally onto the front catch plate from the open end until pressing against the cartridge neck, securing the cartridge neck in place for application.
